Open Space & Watershed Land Grants Deadline September 30, 2022

The state Department of Energy & Environmental Protection (DEEP) is accepting applications for grants to assist water companies, municipalities, and conservation groups in purchasing and protecting Open Space & Watershed Lands. The program has been successful in preserving open space and watershed lands for future generations and has played a critical role in source water protection programs.

Applications and appraisals must be submitted to DEEP by 9/30/22.

For more information, visit DEEP's [website](#).
